REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Brockington Elementary Magnet School for Science and Technology continued their quest toward ongoing improvement during the 2008-2009 school year. Since the school's enrollment has consistently grown over the past few years, plans were made to increase the size of the school campus. The initial phase of the construction time-line began in the spring of 2009.

Academically, the school focused on using MAP (Measures of Academic Progress) to inform instruction and to track student progress. A group from Brockington presented their differentiation model at the SC Formative Assessment Conference during November. This opened dialogue among other schools from across the state. Brockington also made plans for implementing Literacy Workstations during the Balanced Literacy component of the school day. Instructional training and support focused on Kagan Cooperative Learning Strategies and also emphasized best practices during the Teacher Directed Reading segment.

The Brockington Community enjoyed several special events that allowed celebrating the gifts and accomplishments of the BES students. The MAP Extravaganza highlighted the growth and successes of our students and teachers. The BES (Brockington Elementary School) Science Fair helped to showcase the students' inquiry projects. Students involved in the spring musical dazzled audience members in Brockington's production of Aladdin. Finally, academic and other achievements were recognized during the school's Beta Club Induction and BES Awards Nights.

The school enjoyed another great year and has made plans to refine efforts, while setting new goals for 2009-2010.
